In 2013, SCM launched a new series of art programs called “Art and Storytelling” outside of the Museum and in community centers around Sonoma County. The idea was to begin working with immigrant populations that are not typically served by the Museum’s programs, to engage multi-generational families in making art and to interview the participants to better understand who they are and where they come from. This exhibition features a selection of completed “body maps” displayed alongside video interviews of participants.

Programs include:
Thursday, May 7 @ 7:00 PM Gallery Talk with Lead Artist Mario Uribe on the Making of the Body Maps and the Art and Storytelling Workshops.
Thursday, May 21 @ 7:00 PM Panel Discussion on Immigration
